## Roam Artisan Burgers

Who says a burger has to be made from beef? At this new spot, you can also get turkey, bison, or a house-made veggie version.

**BACK TO THE BEEF** When they ask if you'd like your burger pink, say yes. The 100% grass-fed beef patties from Pacific Pastures are low in fat and turn tough quickly if cooked past medium-rare.

**ON THE SIDE** Can't decide between the russet fries, sweet potato fries, or zucchini onion haystack? Go for the Fry-Fecta and get all three.

**DRINK UP** With wines on tap, microbrews, sodas sweetened with agave, and milkshakes topped with brûléed marshmallows, this is no place to go thirsty.
